

## Sparkling Dump Cake

### Ingredients:

24 briquettes  
aluminum foil  
1 cake mix (white or yellow)  
2 cans of pie filling  
1 12oz can of lemon-lime (or ginger ale) soda

### Preparation:

Start the briquettes early.  
Line dutch oven with foil. Pour pie filling into the lined dutch oven.  
Sprinkle (dry) cake mix over the pie filling. Pour soda over the cake mix.  
{ You do not need to stir, but if you do, do not stir down to the pie filling. }  
Bake at 350 F for 35 minutes (about 8 briquettes under oven and 16 on the lid).  
Rotate oven to avoid hot spots. It's done when light brown and not gooey in the middle.
