

TROOP 11 ACTIVITY BOOK

OUTING GAMES

ULTIMATE FRISBEE

CAPTURE THE FLAG

TUG OF WAR

OUTING ACTIVITIES

ROCKETS

ORIENTEERING COURSE

MAP&COMPASS HIKE: need good maps of the area! Figure out how to make the scouts use the map.

GEO CACHING – Find hidden containers all over the world. “The sport where you are the search engine.” More info at www.geocaching.com .

TREASURE HUNT (combine with orienteering?)

NATURE PROGRAM: guided tour/naturalist available?

EMERGENCY PREPAREDNESS Staged emergency and victim evacuation:
In spring or fall (still light until at least 8:30), we could even do this at a regular meeting: treat and evacuate a staged accident victim in Piedmont Park (fell down hill, broke leg and hit head?). The rescue team has to find them, treat them (follow proper accident procedures), figure out if evacuation is prudent and possible and then do it (or not).

MONKEY BRIDGE: Troop 6 has some good-sized timbers that they have let us use in the past. Mr. Li is a Monkey Bridge “expert,” and he would probably be willing to train others if he himself is not able to attend an event in person (or point us to the Monkey Bridge directions he found on the internet). There are many places to find Monkey Bridge instructions.

CAMPFIRE PROGRAM - a theme can help spur creativity and reduce the potential monotony of a campfire program – songs, topical skits, etc...
